THREE J'S INDUSTRIES, INC.
METAL FINISHERS

Leaders in the Metal Finishing Industry

Electroplating
with us
is as easy as
1-2-3

Zinc

Zinc Iron

Cadmium

Product Line

Since 1980, Three J's Industries has been providing **zinc, zinc iron and cadmium** electroplating. With our commitment to providing our customers with **superior quality workmanship, efficiency and total satisfaction** we have built a solid reputation as a leader in the metal finishing industry. While this experience has allowed us success, we continuously strive to evaluate and improve our processes in order to maintain our dedication to our customers changing needs.

In addition to Zinc, Zinc Iron and Cadmium, we offer a wide variety of other services such as chromates & **Hi-Performance trivalent chromates**, bright dipping, passivation, waxing, baking, leaching, rust proofing and a wide array of colored dyes. Our training along with our state of the art equipment and facility allows us to provide our services with a quick turn-around at the best possible price.

Three J's Industries was founded by Erwin Herz in 1980. He recognized the importance for industry knowledge in order to provide customers with the **utmost quality standards, highest efficiency and complete satisfaction**. Today the company is owned and operated by his three daughters – Joanne Marozza, Judy Garnmeister and Jennifer Herz. Three J's Industries is one of the few woman-owned metal finishing facilities in the United States. With the commitment to meeting the standards set forth by Erwin Herz, there is no doubt the customers will come out to be three time winners.

NEW! **PRODUCT LINE**

METAL FINISHES

- Zinc Electroplating
- Zinc Iron Electroplating
- Cadmium Electroplating
- Bright Dipping
- Passivation

IMPROVED

CORROSION

- Seal # 2 , 3 , 4 , 5
- Seal # 5 Plus
- Enseal # 26
- Gleitmo 603, 627

POST FINISHING

- Baking
- Waxing
- Heavy Wax
- Water Wax Soluble
- Torx & Tension Wax
- Wax with a Color Dye

TRIVALENT POST FINISHES

- Trivalent Clear
- Trivalent Yellow
- Trivalent Black
- Trivalent Olive
- Trivalent Red
- Trivalent Blue
- Trivalent Metric Blue
- Trivalent Green
- Trivalent Orange
- Trivalent Violet
- Trivalent Fuchsine

HEXAVALENT POST FINISHES

- Clear Chromate
- Yellow Dichromate
- Yellow Leach
- Yellow Leach after Bake
- Silver Black Zinc
- Black Zinc
- Red Dye
- Blue Dye
- Metric Blue
- Green Dye
- Olive Drab
- Orange
- Violet
- Fuchsine

SALT SPRAY TESTING per ASTM B117 can be done in house and save you money on lab certifications.

Items above can be done to specifications and can be certified. Baking does not completely remove Hydrogen Embitterment and Three J's Industries is not responsible.

STATE OF THE ART FACILITY & TESTING LAB

Three J's Industries shares our customers concerns for the environment and from our front door to the immaculate production floor, hi-tech laboratory and state of the art storage facility we have designed our facility and all processes to be in compliance with all applicable environmental regulations and permits. It is our goal and commitment to ensure all of our customers environmental requirements are met and that we meet and exceed our customers expectations.

Our state of the art storage facility was designed by Erwin Herz to keep our chemicals separated, safe & free from degrading contamination and environmental influences

A self contained overhead waste water treatment prevents ground contamination.

The processing lines allow plating flexibility and ensures that we can meet the unique requirements of each and every customer. Back up pumps on all equipment totally eliminates downtime and therefore provides timely delivery.
